PERSONAL PROFILE

Result-driven Paid Search Manager with 10 years of experience with a proven track record of driving revenue growth strategy in high-performance culture through international Google Ads, Meta ads, and LinkedIn Ads campaigns. By leveraging data-driven customer data insights and channel strategy, campaigns are optimised across multiple search and social platforms, prioritising performance and client success. A proficient client-facing professional, I have collaborated with brands of all audience segmentation sizes, from startups to global industry leaders in both B2C marketing and B2B sectors. My strengths lie in clear client engagement, building relationships, managing client relationships, project management, and accountability. Additionally, my strong foundation in data analysis, including expertise in complex data sets such as Google Analytics, regression analysis, Looker, and data management, has been instrumental in increasing conversions by 96%. I also have hands-on expertise with DV360 and a comprehensive understanding of account administration and management principles. The strategic planning approach focuses on delivering paid search and social strategies that are strategic, results-driven client account strategies while enhancing project documentation and campaign efficiency.
